Department of Panchakarma

Vision:-

Department of Panchakarma • Program Outcomes

S.N.	Domains
PO 1	Knowledge and Skills
PO 2	Planning and problem solving abilities
PO 3	Communication skills
PO 4	Research Aptitude
PO 5	Professionalism and Acquired the basic skills of teaching
PO 6	Environment and Sustainability
PO 7	Lifelong Learner Aptitude

S.No.	Outcomes
CO 1	To understand fundamental principles of panchakarma with respect to Antha (Internal) and bahiparimarjana (external)chikitsa (treatments), kriyakala (Treatment according to stages of diseases), Shadavidha upkarma (6 major principles of management) ,koshta (Metabolic functions) and agni (Digestive functions)etc.with their applied aspects.
CO 2	To get knowledge of Preparation, Method of administration, Uses (Indications & Contraindications), probable mode of actions, and management of complications etc. of different Panchakarma modalities.
CO 3	To gain knowledge of different panchakarma modalities in promotion of health, prevention and treatment of disease.
CO 4	To get knowledge and Practical exposure of different ancient and contemporary instruments and equipment's used in panchakarma theatre in small scale and large scale along with their applications and modifications.
CO 5	To gain insights and practical exposure of Poorva, Pradhana and Paschata karma (Pre- main and post procedural) of different panchakarma modalities with their Significance.
CO 6	To get knowledge of different systemic examination viz neurological, cardiovascular, Respiratory, Integumentary and locomotory etc. with their applied aspect.
CO 7	To know concepts of clinical physical medicine and its treatment modalities viz infrared, Paraffin wax bath, short term diathermy etc. Clinical use of massage, manipulation and physiotherapy etc.

DEPARTMENT OF SHALYATANTRA

PROGRAM NAME :UG

VISION :

- By taking into consideration the stated MSR by NCISM Department of Shalya Tantra aims to develop practically strict discipline & management of operation theatre & live demonstration of human parts & their handling during operation in accordance with Ayurvedic principles to students.

MISSION :

- To develop highly equipped & advance center in the Ayurveda for Surgical & Para surgical methodologies.
- To provide Integrative scientific approach towards teaching-training, research & competency development at UG level.
- To provide Ayurvedic as well as Modern surgical services to society.

COURSE OUTCOMES (CO) FOR AyUG-SHALYATANTRA

- CO1** To obtain classical Ayurvedic & Modern Surgical-Para surgical knowledge in accordance with text like reference books, journals as per guidance from NCISM.
- CO2** Must have through knowledge of sterilization, fumigation, asepsis, antisepsis methods & Para surgical. Surgical procedure & routine ward technique like suturing, dressing skills, I & D of abscess, cystic swelling excision, vene section, catheterization, application & utility of Kshar, Ksharsutra & Agni karma procedure, various techniques of Raktamokshan.
- CO3** To adopt communication skill with diagnosis & treatment of patients individually with integrative approach.
- CO4** To obtain knowledge of Pre-operative & Post-operative care of the patients under guidance of faculty with basic knowledge of aesthetics & management of complications.
- CO5** Able to attend casualty patients & their emergency treatment.
- CO6** To obtain knowledge of X-ray, CT scans, MRI & various radiological & laboratorial diagnostic test & their interpretation clinically & practically.
- CO7** Independently able to diagnose surgical diseases, their laboratory & radiology investigations with interpretation.
- CO8** To get evidence-based practice of Ksharsutra in the field of Anorectal disorders & promoting research in the field of parasurgery (Agni karma, Ksharkarma & Raktamokshan), Asthi-Sandhi-Marma Rog, Mutra Rog, Shashti upakram to fulfill emerging needs of society.

CHAITANYA AYURVED MAHAVIDYALAYA, SAKEGAON, BHUSA WAL

Dravyaguna Department

VISION -

Impart quality education and achieve academic excellance in principles of Ayurvedic Pharmacology and Materia Medica Classical and Contemporary knowledge.

Mission –

1. Upholding the principles of Dravyaguna and promoting devlopement of scientific temper for Ayurvedic Herbal research.
2. Nurture the young talents to become skilled professional in pharmacodynamics and pharmacokinetics of Ayurvedic medicinal plants.

DEPARTMENTAL INITIATIVES –

1. A well mentained 3.5 acre of Herbal Garden having 260 species some important species are Vishnukranta (Evolvulus alsinoides), Shalparni (Desmodium gangeticum), Prushniparni (Uraria picta), Raktchandan (Pterocarpus santalinus etc.
2. Dravyaguna department organizes Workshop, seminar and hands on training in field of plant identification.
3. Besides market samples, drugs are collected from natural habitat of dry 525 and wet 51 specimens have been preserved.
4. Departmental library is enriched with 56 books of Dravyaguna, pharmacology Pharmacognosy and Samhita etc.

Course Learning Outcomes – (CO) – AyUG- DG

CO1 – Demonstrate the application of principles of Dravyaguna in clinical practice.

CO2- Analyze and justify the fundamental principles of Dravyaguna in relevance to contemporary sciences.

CO3- Analyze and interpret Rasapanchak of Dravyas with their application in clinical practice.

CO4- Interrelate the knowledge on Karma (Pharmacological actions) with Rasapanchal and basic contemporary clinical pharmacology.

CO5- Demonstrate and justify the ability to select the specific dravya Prashastabheshaja with different dosage forms in different clinical conditions.

CO6 – Demonstrate knowledge of quality control methods of drug.

CO7- Demonstrate knowledge and skills about Apamishrana (Adulterants), Pratinidhi dravya (Substitutes), Prashastabheshaja (Ideal drugs) and Plant extracts.

CO8- Identify the medicinal plants and orient about Conservation, Cultivation Sustainable utilization and Pharmacovigilance.

CO9- Demonstrate fundamental principles of applied pharmacology.

DEPARTMENT OF ROGNIDAN EVUM VIKRITI VIGYAN

STANDARD OPERATING PROCEDURE (SOP)

The Pathology laboratory of Rognidan Evum Vikriti Vigyan Department is the area of productive knowledge, development and learning for aspiring medical students.

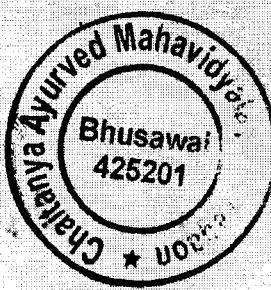

Students should contribute to create and maintain a respectful and supportive environment where experiments can be carried out in professional manner.

Student should follow the instructions given by concerned teacher/instructor while performing the experiment.

In Pathology laboratory, a student is required to handle contaminated blood samples, urine samples and hazardous chemicals

Some of the chemicals and equipment may cause severe burns, cuts, or bruises if not handled properly /carefully.

Most of the accidents that occur in the pathology laboratory are as a result of carelessness, impatience, improper or unauthorized handling/experimentation, and negligence of safety rules and proper operating procedures

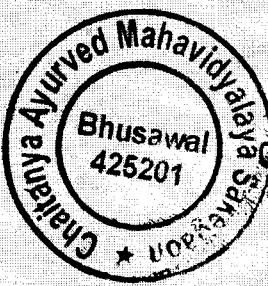

PRINCIPAL
Chaitanya Ayurved Mahavidyalaya
Sakegaon - Bhusawal

INSTRUCTIONS

Be Sure that you understand every instruction before proceeding towards Laboratory.

- Do not perform unauthorized experiments or work in the laboratory alone.
- Apron must be worn at all times while in the laboratory.
- Before handling any chemicals, read the label on the reagent bottles carefully. Be careful while handling microscope, needles, glass pipettes and glass slides.
- Never direct the open end of test tube/ignition tube toward yourself or anyone else.
- Always extinguish the flame when the burner is not being used. Make sure that all flammable reagents
- are well removed before lighting the burner.
- Never return unused chemicals to their original container (unless directed to do so by the instructor). Securely replace lids, caps,
- and stoppers after removing reagents from containers. Always wipe spatulas clean before and after inserting into reagent bottles.
- If you get any chemical in your eyes, Nose or mouth rinse immediately with sufficient water.
- Report any accident/injury, however minor, to your instructor immediately.

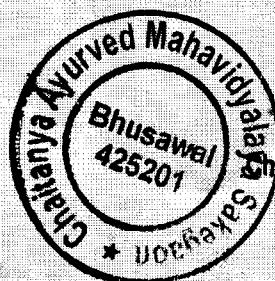

Chaitanya Ayurved Mahavidyalaya
Chaitanya Ayurved Mahavidyalaya
Sakegaon - Bhusawal

- Clean up any spill immediately with the help of Laboratory Assistant.
- Rinse the pipette, test tubes with tap water immediately after performing your experiment.
- Before leaving the laboratory, make sure your work area is clean and dry. Ensure that all gas, water, valves are completely turned off. Avoid excess use of spirit, surgical cotton etc.
- Thoroughly wash your hands before leaving the laboratory.
- Separate the waste as -1) Medical waste in red bag 2) Hazardous chemical waste in sewage system 3)
- Garbage and Trash in Black colored plastic bags 4) Needles- Discard in needle destroyer In case of any mishap, please contact the following persons

Course learning outcomes

> Samhita Adhyayan

1. Distinguish the different Samhitas, their importance and methodology and familiarize with the tools of Samhita Adhyayan. (eg: tantrayukti)
2. Interpret and apply the sutras from the Samhitas.
3. Apply and evaluate the Tridosha, Saptadhatu and Mala principles (theory).
4. Practice and prescribe Dinacharya (daily regimen), Ritucharya (seasonal regimen) and dietary principles for preservation of health.
5. Explore and distinguish different types of food, food groups and medicinal dravyas mentioned in Samhitas.
6. Identify various etiopathological factors and predict different treatment principles
7. Recognize and explain the fundamentals behind various therapeutics (Shodhan and allied) and parasurgical therapies.
8. Develop a code of behavior and show mature behaviour in particular to the scientific deliberations.

> Padartha Vijnanam

1. Illustrate the scope and utility of Ayurveda
2. Explain Philosophical foundation of Ayurveda, Principles (Siddhantha) of Darshana along with their similarities and relevance in Ayurveda and contemporary sciences.
3. Analyse and interpret Padartha (Prameya) in Darshana and Ayurveda. Recognize their applications in Ayurveda.
4. Distinguish, analyse and apply concept of Pramana shastra (Epistemology) in Darshana and

PRINCIPAL
Chaitanya Ayurved Mahavidyalaya
Sakegaon - Bhusawal

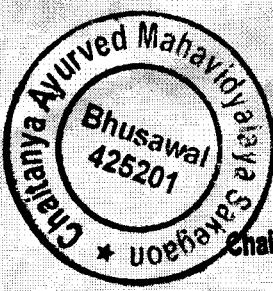

5. Ayurveda. Demonstrate their applications in Ayurveda.
6. Analyse and apply concept of Karya Karana Bhava in Ayurveda.

➤ **Samskrit**

1. Read and recite Prose (गद्यः) and poem (पद्यः) with the appropriate accent
2. Apply various Technical Terms in Ayurveda (परम्भाषाशब्दाः), Nouns & Pronouns (नामस्त्रिपानण तथा सर्वनामस्त्रिपानण), Verbs (धातुरूपानण), suffixes (प्रत्ययाः), Grammatical Terms (सांज्ञा), Syntax (सांधी) and Compounds (समासाः) from Sanskrit Grammar for enhanced interpretation of Ayurveda texts
3. Discriminate and interpret the Cases & meanings (नर्भाकृतत्यथय) used in various verses of Ayurveda texts
4. Formulate the Prose order (अक्ल्यः) of Slokas/Sutras in Ayurveda Textbooks (सांनहता) to derive the meaning (राच्याथय), to determine the Scientific Meaning (शास्त्राथय) and to Translate (Regional or other language).
5. Interpret the Synonyms (पयाययातांः) and Derivations (ननरुनि) of Ayurveda Terms using samskrita dictionaries
6. Speak, Write and Summarize and Express in Samskrit
7. Develop the ethical responsibility towards the profession, society and human being
